LE MONUMENT

Castelgrande

Castelgrande est le plus ancien et le plus grand des trois châteaux de Bellinzone : une forteresse sur un rocher au milieu de la ville, avec deux hautes tours et de longues murailles couronnées de merlons en queue d'aronde. Avec Montebello et Sasso Corbaro, il gardait la vallée sur les routes des cols alpins.

Sur le rocher au centre de Bellinzone, au-dessus de la Piazza Collegiata et de la Piazzetta della Valle.

REGARDE DE PLUS PRÈS

Construit contre les Suisses

Au 15^e siècle, Bellinzone appartenait au duché de Milan, et ses châteaux et murailles furent renforcés pour empêcher les Confédérés suisses de descendre vers le sud. Finalement, la ville devint suisse quand même, au début du 16^e siècle.

Queues d'aronde

Les merlons fourchus des murailles, en forme de queue d'hirondelle, sont typiques des châteaux d'Italie du Nord de l'époque et donnent aux murailles de Bellinzone leur silhouette.

Un ascenseur dans le rocher

Lors de la restauration de Galfetti, un puits d'ascenseur a été creusé dans le rocher : depuis la petite place à son pied, tu montes tout droit dans le château.

Le socle

Chaque modèle de la série repose sur le même socle noir avec une plaque nominative : tes souvenirs s'alignent sur l'étagère. Construis la bande noire, emboîte-la sous le bord avant du modèle, puis les petites plaques 2 × 4 (les pieds) sous ses coins arrière. Colle ensuite l'étiquette de la page « plaque nominative » sur les tuiles beiges.

Ta plaque nominative

Imprime cette page à 100 % (sans « ajuster à la page »), découpe une étiquette le long du trait gris et colle-la sur la plaque beige 2 × 8 du socle. Conseil : du papier autocollant ou une bande de ruban adhésif transparent par-dessus la fait durer plus longtemps.

Étiquettes en trois couleurs au choix : beige, bleu marine, rouge suisse.

Un ascenseur dans le rocher

Regarde au pied du rocher, à l'avant : une petite porte vitrée.

Lors de la restauration de 1982 à 2000, l'architecte Aurelio Galfetti fit creuser un puits d'ascenseur à travers le rocher : les visiteurs montent ainsi directement de la Piazzetta della Valle jusqu'au château.

Les murs du château reposent en grande partie sur des fondations romaines.
