LE MONUMENT

Museggmauer

La muraille de la Musegg est le tronçon le mieux conservé des remparts médiévaux de Lucerne : 870 mètres de pierre et neuf tours le long de la crête au nord de la vieille ville. En été, tu peux monter dans quatre d'entre elles et regarder par-dessus les toits jusqu'au lac et aux Alpes.

Sur la colline de la Musegg, au bord nord de la vieille ville de Lucerne, à quelques minutes de montée depuis la Reuss.

Construction	d'environ 1370 jusqu'au 15e siècle
Longueur	870 mètres, environ 9 mètres de haut
Tours	neuf, de la Nölliturm au bord de la Reuss jusqu'à la Dächliturm
La plus haute	Luegisland, 52,6 mètres, aussi la plus ancienne (vers 1367)
Horloge	Zytturm, 1535, par Hans Luterer, toujours en marche
Ouvertes au public	Männliturm, Luegisland, Zytturm et Schirmerturm (en été)

REGARDE DE PLUS PRÈS

L'horloge qui sonne la première

L'horloge de la Zyturm, de 1535, est la plus ancienne de Lucerne. Par privilège, elle sonne l'heure une minute avant toutes les autres horloges de la ville.

Le petit homme de fer

Au sommet de la Männliturm se dresse une figure en fer avec un étendard : le « Männli », qui a donné son nom à la tour.

Un mur avec vue

Aujourd'hui, les tours sont des belvédères : d'en haut, tu vois le pont de la Chapelle, le lac et, par temps clair, le Pilate et le Rigi.

OÙ LE TROUVER À LUCERNE

Adresse

Museggmauer, Schirmertorweg, 6004 Luzern

Pour y aller

Environ quinze minutes à pied depuis la gare de Lucerne : traverse la Reuss vers la vieille ville et monte par les ruelles jusqu'à la muraille.

Conseil

Monte dans la Zyturm quelques minutes avant l'heure pile et attends que l'horloge sonne, une minute avant toutes les autres cloches de la ville.

Le socle

Chaque modèle de la série repose sur le même socle noir avec une plaque nominative : tes souvenirs s'alignent sur l'étagère. Construis la bande noire, emboîte-la sous le bord avant du modèle, puis les petites plaques 2 × 4 (les pieds) sous ses coins arrière. Colle ensuite l'étiquette de la page « plaque nominative » sur les tuiles beiges.

Ta plaque nominative

Imprime cette page à 100 % (sans « ajuster à la page »), découpe une étiquette le long du trait gris et colle-la sur la plaque beige 2 × 8 du socle. Conseil : du papier autocollant ou une bande de ruban adhésif transparent par-dessus la fait durer plus longtemps.

Étiquettes en trois couleurs au choix : beige, bleu marine, rouge suisse.

Une minute d'avance

Regarde la grande horloge sur la tour de droite : la Zyturm.

Son horloge fut fabriquée par Hans Luterer en 1535 ; c'est la plus ancienne de Lucerne. Par privilège, elle a le droit de sonner l'heure une minute avant toutes les autres horloges de la ville.

La petite figure au sommet de la Männliturm, à gauche, est un soldat en fer avec son étendard.
