GENAUER HINSCHAUEN

Die Zeit für die ganze Stadt

Bevor alle eine Uhr hatten, schauten die Leute in Zürich zu St. Peter hinauf, um zu wissen, wie spät es ist. Die riesigen vergoldeten Ziffern sind fast einen Meter hoch. Die Zifferblätter sind so gross, dass du die Zeit von weit her ablesen kannst.

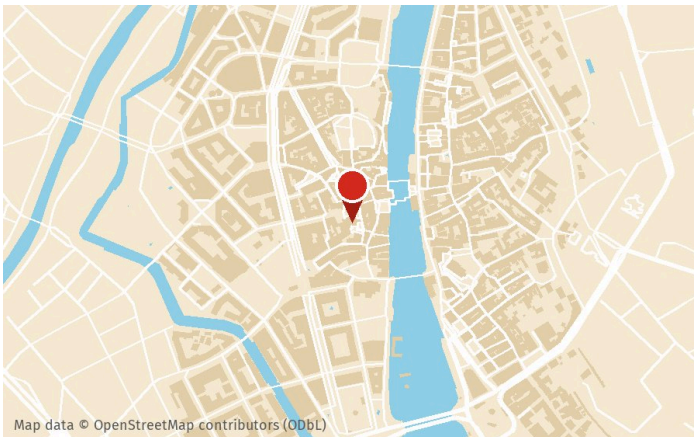

Die Feuerwache

Bis 1911 wohnte ein Wächter hoch oben im Turm. Tag und Nacht hielt er Ausschau über die Dächer der Altstadt. Sah er Rauch, schlug er Alarm, damit man ein Feuer löschen konnte, bevor es sich ausbreitete.

Ein berühmter Pfarrer

Johann Caspar Lavater, im 18. Jahrhundert ein in ganz Europa bekannter Schriftsteller, war hier von 1778 bis 1801 Pfarrer. Sein Grabstein ist in eine Wand der Kirche eingelassen. Findest du ihn?

Die Laterne des Feuerwächters

Schau ins oberste Turmgeschoss, gleich unter dem Helm: Dort leuchtet ein kleines gelbes Licht.

Vom Mittelalter bis 1911 wohnte oben im Turm von St. Peter ein Feuerwächter. Tag und Nacht hielt er Ausschau über die Dächer von Zürich und schlug Alarm, wenn er Rauch oder Flammen sah.

Bis heute gehört der Turm der Stadt Zürich und das Kirchenschiff der Kirchgemeinde.
